

BOARD OF MANAGEMENT
CHAIRMAN'S REPORT
1991

PRESIDENT DIRK BEVAN

CHAIRMANS REPORT 1990 - 1991

1990 has resulted in a fairly quite year on the boards behalf.

April 1990 saw the commencement of stage 1 of drainage to our No. 1 diamond. The drainage was so effective that it saw the use of the top diamond for the whole winter season. The works were completed successfully and followed with ground works by our club which brought our No. 1 diamond up to a higher standard than we had before.

November 1990 brought the terrace effect at the entrance of the club. The path which leads from our clubrooms to the centre Dandenong road carpark has stopped all the dust and that we were affected by for the last 3 years. I will take this opportunity to thank a few specific people for the effort in the landscaping of the front of the club rooms. Thanks, Peter, Roz Perturzo, Kevin Howe, Mark Philips and Roz Perturzo's father, for the outstanding effort and professionalism shown in the project.

To enhance the area, Peter Perturzo, myself and Roz Perturzo paved the area in front of the canteen, Thanks Pete & Roz.

March 1991 will see the council seal and drain the car park. The amount allocated by the council is in excess of \$160,000.

March 1991 has also seen a letter submitted to council asking for the guttering at the front of the clubrooms to be diverted back through spouting. This will ensure the prosperity of the plants and grass which have been nurtured over the past few months.

ON THE FIELD

The winter season had a successful year, the final number of premierships were few, but, the general outcome of the junior and senior season was successful.

1991 should be again a prosperous year with the signing of David Clarkeson as club coach.

The summer season started well but through no fault of the committees saw Cheltenham fall to Division 3. We have finished the season well and all teams are looking at a finals berth. My thought is still as previous years "we must not compromise from striving for a division 1 berth in the not too distant future".

The Rustlers logo, featuring the word "Rustlers" in a stylized, blue, cursive font with a white outline and a blue shadow effect.

The juniors have been outstanding. We must ensure that our juniors learning curves are not stagnated.

Goodluck to all players for the finals.

PROPOSED PROJECTS FOR THE FUTURE

- 1) Full backnet for diamond No. 2 by the end of April 1991.
- 2) Initiation of talks for a 3rd diamond.
- 3) Submission of proposal of drainage for diamond No. 2.
- 4) Submission of proposal of a childrens recreation and barbeque area next to our change rooms.

I thank the members of the board for the support during the year.

Kind Regards,

A handwritten signature in blue ink that reads "Dirk".
