

BOARD OF MANAGEMENT

CHAIRMAN'S REPORT 1997 – OLIVIA REID

As I begin to write this report for the Annual General Meeting of the Cheltenham Baseball Club Inc., I must write that I have found the position of president to be a role that I underestimated when I first accepted it twelve months ago. Over this time I have attended many meetings, seminars, forums and the like, and along with this I have met many people, some for the first time, that all go together to make Cheltenham Baseball Club, the club that it was in the past and the club that it will be in the future.

Cheltenham Baseball Club is considered one of the best clubs within both the Dandenong & Victorian Baseball Associations, and the reason for this is the standard that the committees, coaches, players and members have strived for and attained over the years.

On most given weekends and various week nights throughout the year, we see our players and coaches in action on the field, we see them strive and attain, we see them win and we applaud and congratulate them because without these players there would be no club.

Cheltenham Baseball Club Inc. is a twelve months of the year club, running in two six month seasons, with the Board of Management operating for the full twelve months. In this twelve months many people came together to do their best for the club, and not always are the decisions that are made pleasing to all, but they are not their to please individuals, but to do their best for Cheltenham Baseball Club. The voluntary time that is given by people who make up these committees and the people who work with them is mainly unseen and at times unappreciated.

I am very appreciative and proud of the commitment given to me and Cheltenham Baseball Club, from the summer and winter committees and the people who have made up the Board of Management for the past twelve months.
